BCJ-1650B

Quick inflator unit
Available in Europe only

Sizes	Lift Capacity
XS	18lb. (=8.2kgf., =80N)
S	21lb. (=9.7kgf., =95N)
M	30lb. (=13.8kgf., =135N)
L-XL	38lb. (=17.3kgf., =170N)

Technology

• Ultimate stabilizing harness

Sizes	Lift Capacity
XS	18 lb. (=8.2kgf., =80N)
S	23 lb. (=10.2kgf., =100N)
M	32 lb. (=14.3kgf., =140N)
L	38 lb. (=17.3kgf., =170N)
XL	46 lb. (=20.9kgf., =205N)

PASSAGE
Integrated

[PAT.P.] BCJ-1650

- Ultimate stabilizing harness
- Weight loading system
- 4 D-rings for accessory attachments
- 420 denier Nylon shell for superior strength and durability
- 2 large zippered pockets
- Adjustable sternum strap
- O.P.E.V. quick inflate/deflate system
- Rear quick dump valve

Features

• Ultimate stabilizing harness

A new Ultimate Stabilizing Harness has been developed for the BCJ-1650. In order to reduce the weight, the previous long rail type Ultimate Stabilizing Harness has been redesigned into a more compact size.

Of course, the superior concept of the Ultimate Stabilizing Harness remains the same, with two rails firmly securing the tank. The harness is compact and yet tightly holds the tank, preventing it from slipping or shaking whether in the sea or on land.

• Weight loading system

The W.L.S. allows the diver to insert weights into the weight-cartridges as well as into the loading pockets of the jacket. Additionally, with weight distribution to the shoulder area, the uncomfortable feeling that is traditionally associated with weight belt is eliminated. 4kg/8lbs. (maximum: 5kg/10lbs.) of weight can be placed in each of the left and right sides.

(Total recommended weight: 10kg/20lbs)

TUSA
Liberator Σ

[PAT.P.] BCJ-3200

- Heavy duty 840 denier Nylon shell for superior strength and durability
- Ultimate stabilizing harness
- Ritetite Buckle ensures secure tank fit
- Stainless steel D-ring for accessory attachment
- Advanced Weight Loading System (A.W.L.S.)

Features

• Advanced Weight Loading System (A.W.L.S.)

The A.W.L.S. allows the diver to insert weights into the weight-cartridges and loading them easily into the front of the BC jacket. Additionally, with weight distribution to the shoulder area, the weighted-down feeling that is traditionally associated with weight belts is eliminated. 4kg/8lbs. (maximum: 6kg/12lbs.) of weight can be placed in each of the left and right sides, and two

pockets on the rear of the jacket can each hold up to 2kg/4lbs. of additional weight. (Total recommended weight: 10kg/20lbs.; maximum: 16kg/32lbs.)

• Ritetite Buckle ensures secure tank fit
