- Large purge button for efficient operation
- Left and right hose layout compatibility
- Ortho-consciously designed mouthpiece

R-500 (1st Stage)

S-20 (2nd Stage)

RS-520 DIN

Max. pressure: 300 bar.

Features

1st Stage

• Balanced piston first stage

The all new R-500 piston first stage is incredibly small, lightweight (720g) and offers superior performance. Optimized layout of 4 L.P. and 2 H.P. ports allows versatile hose placement. The R-500 incorporates an adjustment screw for ease of maintenance.

2nd Stage

• Ortho-consciously designed mouthpiece

The new mouthpiece, developed on the basis of ergonomic engineering, further enhances the comfort of bite, fit, and stability. Even with a light bite, a high level of stability is achieved, so there is no fatigue from long periods of usage.

Reusable mouthpiece cinch
